

# Machine Learning For Kids :: Teachers' notes

<b>Worksheet</b>	<b>Shy Panda</b>
<b>Activity</b>	Make a character in Scratch that stops dancing if it recognises you looking at it
<b>Objective</b>	<b>Teach a computer to recognise pictures</b> <ul style="list-style-type: none"> <li>Learn how computers can be trained to recognise an object</li> </ul>
<b>Difficulty level</b>	Beginner
<b>Time estimate</b>	45 minutes
<b>Summary</b>	Students train a machine learning model to recognise pictures by taking photos of their face with a webcam. They use this in Scratch to make a character that recognises what they're doing.
<b>Topics</b>	image classification, supervised learning

## Setup

Each student will need:

<b>Print-outs</b>	Project worksheet (download from <a href="https://machinelearningforkids.co.uk/worksheets">https://machinelearningforkids.co.uk/worksheets</a> ) Blocks in Scratch scripts are colour-coded, so printing in colour will make it easier for students.
<b>Technology</b>	Web-cam
<b>Access</b>	Username and password for machinelearningforkids.co.uk

Class account will need:

<b>API keys</b>	None
-----------------	------

## Customizing

If you use **PRIMM** approaches with your class, add a step where students predict how the project template works. If you want to **increase the amount of coding** involved, delete some of the code from the project template and add steps to the worksheet so students code it themselves. If you want to **encourage problem solving**, delete some of the detail in the worksheets and provide more general instructions instead. Project template files & worksheets in MS Word format are available so you can **modify them to suit your class**.

<b>Template</b>	<a href="https://github.com/IBM/taxinomitis-docs/tree/master/scratch-templates">https://github.com/IBM/taxinomitis-docs/tree/master/scratch-templates</a>
<b>Worksheets</b>	<a href="https://github.com/IBM/taxinomitis-docs/tree/master/project-worksheets/msword">https://github.com/IBM/taxinomitis-docs/tree/master/project-worksheets/msword</a>

## Help

<b>Potential issues</b>	<ul style="list-style-type: none"> <li>Students will be taking photos of their face and uploading them to a secure site, where they are kept until their photo or project is deleted. If this raises concerns it may be sensible to obtain parental permission.</li> <li>"https://machinelearningforkids.co.uk" is a long URL to type for some children. You may find it easier to set up a bookmark that they can click on instead.</li> </ul> <p>General troubleshooting and help at <a href="https://machinelearningforkids.co.uk/help">https://machinelearningforkids.co.uk/help</a></p>
